Anthropology is all about studying humankind and human culture—take your pick on how: archaeology, biological anthropology, linguistic anthropology, or social and cultural anthropology … or all four.

Want to study abroad? You can make it a part of your anthropology studies.

Department of Anthropology

What good is anthropology? Find out how humans really work and change the world.

Want to study abroad? You can make it a part of your anthropology studies.

At ND, students do original research—even as undergrads. Check out our internships with the Smithsonian and Chicago Field Museum, our archaeological digs, fieldwork around the world, and laboratory research projects with faculty.

Use your degree to get a job as a marketer, manager, broadcaster, writer, teacher, researcher, executive, social scientist, or public relations expert.
